Example dataset 2

	A	B	C	D	E	F
1	1	2	3	4	5	6
2	7	8	9	10	11	12
3	13	14	15	16	17	18
4	19	20	21	22	23	24
5	25	26	27	28	29	30
6	31	32	33	34	35	36

OFFSET function example 1

	A	B	C	D	E	F
1	1	2	3	4	5	6
2	7	8	9	10	11	12
3	13	14	15	16	17	18
4	19	20	21	22	23	24
5	25	26	27	28	29	30
6	31	32	33	34	35	36

Diagram illustrating the OFFSET function example 1. The value 1 in cell A1 is circled in blue. Blue arrows show the path from A1 to B3 (down 2 rows, right 1 column) and from B3 to D3 (right 2 columns). The value 16 in cell D3 is circled in red.

OFFSET function example 2

	A	B	C	D	E	F
1	1	2	3	4	5	6
2	7	8	9	10	11	12
3	13	14	15	16	17	18
4	19	20	21	22	23	24
5	25	26	27	28	29	30
6	31	32	33	34	35	36

Diagram illustrating the OFFSET function example 2. The value 14 in cell B3 is circled in blue. Red arrows show the path from B3 to D4 (right 2 columns, down 1 row) and from D4 to B4 (left 2 columns). The value 22 in cell D4 is circled in red.

OFFSET function example 3

	A	B	C	D	E	F
1	1	2	3	4	5	6
2	7	8	9	10	11	12
3	13	14	15	16	17	18
4	19	20	21	22	23	24
5	25	26	27	28	29	30
6	31	32	33	34	35	36

Diagram illustrating the OFFSET function example 3. A light blue shaded area covers cells B2 through D4. Red arrows show the path from B3 to D4 (right 2 columns, down 1 row) and from D4 to B4 (left 2 columns). The value 14 in cell B3 is circled in blue, and the value 22 in cell D4 is circled in red.
